# TERMS OF SALE

1. This is an unreserved auction sale for both floor and mail bids conducted by a licensed and bonded auctioneer. The auctioneer reserves the right to open the bidding at a reasonable price, set reasonable bidding increments, and in his sole discretion, vary those increments as the occasion requires.

2. All bids are per lot as numbered in this catalogue. No lots will be broken.

3. All lots will be sold to the highest bidder as determined by the auctioneer. No «buy» or «unlimited» bids will be accepted. The auctioneer reserves the right to reject any bid which he feels is not made in good faith. If any dispute arises between the bidders, the lot in question shall immediately be put up and sold again. Decisions of the auctioneer are final as to all matters in this and other paragraphs relating to his functions.

4. The auctioneer reserves the right to withdraw any lot prior to the sale. If any printing or other error occurs, the auctioneer will announce a correction and sell the lot subject to those changes.

5. All material in this catalogue is guaranteed to be genuine and as described. All photographs are of actual items to be sold. Grading is the «bona fide» opinion of the cataloguer and no warranty, expressed or implied, is made as to the grading, which may vary among experts.

6. No lots may be returned by floor bidders. Mail bidders may return lots for reasons of authenticity or improper description. Successful mail bidders must make any claim for adjustment in writing to Galerie des Monnaies of Geneva, Ltd. within five days after delivery of lots. No lot may be returned prior written permission of Galerie des Monnaies. This is not an approval sale.

7. Late remittance for purchases is cause to negate any return privilege. No returns will be permitted for any reason after settlement is made with our consignors.

8. Only bids made in even dollar amounts will be accepted. This includes any authorization by the bidder to increase bids by a certain percentage. Such increments will be rounded to the nearest dollar amount.

9. All minors wishing to participate in the sale must present notarized signed parental permission before their bids will be accepted.

10. Mail bids will be executed, at no additional charge, by Galerie des Monnaies of Geneva, Ltd. When identical mail bids are received, preference is given to the earliest postal cancellation as determined solely by Galerie des Monnaies of Geneva, Ltd. In the case of a tie between a floor and mail bidder, the floor will take precedence.

11. Successful mail bidders and those successful floor bidders requesting shipment will be charged for handling, postage, insurance and/or registration fees.

12. All lots delivered in the State of New York are subject to sales tax unless a resale permit is on file with the Galerie.

13. **A buyer's premium of 10% of the final hammer price, as determined by the auctioneer, will be added to the winning bid.** Payment of this premium, as well as all other charges, including taxes elsewhere described in these terms is required of all successful bidders.

14. Title to all coins shall not pass to the buyer until the invoice is paid in full. A successful bidder, whether acting as principal or agent, personally guarantees prompt payment and all other obligations imposed on a buyer.

15. Bidders not known to us must furnish satisfactory references well in advance of the sale, or deposit 25% of the bids submitted. This deposit will be applied towards all winning bids, with any overage refunded.

16. Payment terms are strictly cash in U.S. funds due upon receipt of invoice. Any lot not paid for within five days of receipt of invoice will be subject to a service and collection charge of 1.5% per month (18% annum).

The buyer will also pay reasonable attorney's fees involved in the collection of any past due debt. Personal checks are acceptable subject to collection and proper identification. The auctioneer, however, reserves the right to retain any lot paid for by check until good funds are available and the check has cleared.

17. Check your bid sheets carefully. Galerie des Monnaies cannot assume responsibility for any errors made by bidders.

18. Bidding on each lot will start at 5—10 % over the second highest mail bid. This insures that a successful mail bidder will obtain a lot at the lowest price within the guidelines of the increments determined by the auctioneer.

19. Lots acquired by our overseas customers will either be available for pick-up in Geneva, or shipped from Switzerland within two weeks after the sale as per your instructions. Any extra charges payable abroad, such as customs duties or taxes, are to be borne entirely by the buyer.

20. It is the responsibility of the buyer to comply with foreign customs, exchange regulations, etc. The organizers of the Auction decline all responsibility for any consequences arising from contravention of such regulations.

21. Bidding in this auction constitutes full acceptance of the above terms of sale.

## BOLIVIA (Formerly part of PERU, under the Spanish rule)

If not otherwise stated, all the coins are from **POTOSI MINT**.

The celebrated silver mines of Potosi were discovered by the Spanish in 1545, who in the following year founded the city of this name, ennobled by the Emperor Carlos I with the title «Villa imperial» and a coat of arms. The mint of Potosi was installed between the end of 1573 and the beginning of 1575, but it ought to have begun functioning in 1574 judging from letters of the viceroy Francisco de Toledo in which he speaks of money coined there. The first tools and machinery came from the projected mint at Ciudad de la Plata, which in its turn had received them from Lima. The viceroy Toledo in 1575 prepared the Ordinances for the operation of the mint, taking advantage of the experience gained briefly at Lima and earlier at Mexico. By closing the Lima mint in 1588, Potosi remained the only mint in South America for nearly a century. New ordinances were issued by Fernando VI by the Real Cédula of 1 August 1750 for the mint at Mexico; these were applied five years later to Potosi and remained in effect, with some modifications, until the end of the Spanish domination. At the same time, 1750, the mint of Potosi passed from private hands, in which it had been since its foundation, to become property of the Crown. Fernando VI provided it with a large building which, in size and importance of production, rivalled those of Spain itself.

## PERU

If not otherwise stated, all the following coins have been struck at the **LIMA MINT**.

**For the coins of Potosi, see nos 13 to 213.**

Of all the Spanish American mints that of Lima had the most irregular career. In 1565 King Philip II signed the Royal decree which permitted the opening of a mint at Lima. The first coinages, now scarce, apparently began in 1568 and were suspended in 1570. The second closing of Lima mint during almost seventy years (1589—1658) made in those days Potosi to the only mint which continued to work in all South America. «The desire to reopen the Lima mint become very strong because of the scarcity of money caused by the recall of a large part of the Potosi coinage 1649—1651. Production started in 1659. The Lima mint, reopened with such elan, was closed on 13th April 1660 and the dies defaced. After this abortive attempt the Lima mint went into full production twenty-four years later. Except for short interruptions caused by earthquakes, the mint has been in continuous operation since then.» (Grunthal H. and Sellschopp E., *The Coinage of Peru*).
